MESSAGE

It is reassuring to learn about the 3rd Iteration of UPES Hackathon named 'UHackathon 3.0' organized in the offline mode by The School of Computer Science, University of Petroleum and Energy Studies (UPES), Dehradun on August 5-6, 2022. Heartiest congratulations to all the participants and organisers associated with the event.

This edition of UHackathon provides a robust platform to connect our youth with futuristic skills. It is an opportunity for the participants to leverage technology to identify challenges and devise innovative solutions for the all-round betterment of people.

Through various initiatives to promote technology-enabled learning, our government has made skilling an integral part of education. We are also striving to utilise AI for people's benefit and solve day-to-day problems faced by common people.

India is the vanguard of global IT industry. The amalgamation of AI with the power of human touch is transforming the speed and scale of our developmental efforts. In today's technology-driven age, our vision is to ensure that India continues to strengthen its position in digital technology and becomes a global hub for AI.

UHackathon 3.0 has seen participation of teams from across the country and for the first time teams from SAARC nations.

Best wishes to all the teams participating in the finale. I am sure that teams that could not make it to the finale this year will come back with a new resolve and vigour.

May UHackathon 3.0 be a grand success.

(Narendra Modi)
